

RAHUL GOEL

Staff Technical Program Manager | AI Program Portfolio Leadership | Scaled Automation Delivery | Global Engineering Execution

Bangalore, India | +91 9873676254 | Rahul.g2510@outlook.com | linkedin.com/in/goelrahul25

PROFESSIONAL SUMMARY

Staff Technical Program Manager with 20 years owning portfolio-scale AI and platform programs at VP and C-suite level. At Amazon, built and coached a TPM org delivering production GenAI systems, \$5.3B capital programs, and global platform capabilities across a \$165M AWS portfolio. Drove production GenAI delivery on AWS Bedrock Agents including agentic workflow design, RAG architecture, LLM selection, and LLMOps, replacing manual operations with autonomous systems at scale. Proven track record building scalable technical capabilities across 15+ global markets, running PoC experiments to validate automation feasibility, and translating engineering complexity into executive-level decisions. Client-facing delivery experience across 10+ Fortune 500 engagements at Deloitte Digital.

PROFESSIONAL EXPERIENCE

Amazon India Development Centre | **Senior Technical Program Manager** | *March 2022 to Present*

Owned end-to-end delivery of AI-first and platform programs across Amazon's \$165M AWS portfolio. Served as single point of accountability for VP and C-suite programs, driving goal alignment across engineering, finance, and operations. Built and coached a TPM org, led architecture reviews, defined KPIs, built executive reporting dashboards, and mobilized cross-functional teams to deliver high-impact outcomes.

- **GenAI and Agentic Platform Delivery:** Drove end-to-end delivery of human+machine intelligence programs on AWS Bedrock Agents. AskGenie replaced manual support review workflows with autonomous resolution, achieving 88% autonomous resolution rate and significantly reducing human escalation load at scale. Procurement Advisor automated inventory management across 1,200+ global facilities on \$250M+ spend, generating \$2.3M annual ROI and 25% reduction in manual effort. Drove feasibility experiments and PoC validation before full-scale engineering handoff. Applied LLM selection, RAG architecture, prompt engineering, agentic workflow design, and LLMOps throughout delivery.
- **Cloud Governance:** Implemented automated guardrails, rightsizing, and Reserved Instance optimization across \$162M AWS portfolio driving \$8M annual cloud cost savings. Defined and owned cloud spend KPIs, architectural investment decisions, and FinOps governance framework used by VP-level stakeholders.
- **Regulatory and Compliance Execution:** Delivered global GDPR compliance across all Tier 1 and Tier 2 services 2 months ahead of deadline. Secured org-wide adoption of Privacy by Design across Amazon's global engineering surface.
- **Capital Program Delivery:** Directed \$5.3B Capital Planning program across 4 cross-functional teams, securing \$50M/year in cost avoidance through governance cadences and executive KPI reporting.
- **Platform Reliability and Observability:** Led cross-org delivery of EagleEye multi-region platform (Python, Lambda, Prometheus, Datadog) across 15+ global markets, delivering a scalable technical capability that improved platform throughput by 20%. Drove adoption across distributed engineering teams, managed stakeholder alignment across geographies, and owned operational readiness standards for the rollout.
- **Engineering Leadership and AI Productivity:** Managed and coached a team of 10+ Senior Engineers and TPMs across multiple concurrent programs. Set delivery standards, conducted architecture reviews, drove performance management, and built TPM capability across the org. Developed AI adoption playbooks, enablement frameworks, and governance standards adopted across the engineering organization. Built automation-first engineering culture. Recognized as GenAI Program Lead (2024) and AI Automator Award recipient.

Deloitte Consulting India Pvt. Ltd. | **Engineering Lead and Delivery Manager** | *November 2015 to March 2022*

Built and led engineering teams across 10+ Fortune 500 client engagements spanning marketing technology, banking, retail, and digital experience. Partnered directly with CTO and C-suite stakeholders to define technology strategy, manage program budgets, and deliver measurable outcomes.

- **People Leadership:** Built, managed, and grew 45-member engineering teams across client engagements. Owned full management lifecycle including hiring, performance, career development, and succession planning. Recognized as Best Performing Manager (FY2020 and FY2021).
- **Marketing Technology and SaaS Platform Delivery:** Designed and delivered ML campaign automation on Adobe Marketo Engage and HUX Customer Data Platform using Gen AI. Built customer segmentation models and automated targeting workflows generating 2.5x marketing ROI, 30% targeting precision gain, and 12% churn reduction.

- **Java Architecture and SDLC Ownership:** Led Java engineering team on Broadcom Customer Service Portal, owning HLD/LLD API architecture, Java microservices, and full SDLC from SOW through production. Delivered on time and within budget with full schedule ownership.
- **Platform Architecture and Search:** Owned catalog taxonomy and Solr full-text search on Scholastic's digital commerce platform. Delivered 35% time-to-market reduction through modular architecture and CI/CD automation.
- **Banking Platform on Azure:** Led delivery of ING Group's branchless banking platform on Azure (.NET, Java), integrating AI avatar and facial recognition to digitize branch operations. Delivered 40% operational overhead reduction across retail banking workflows, reducing dependency on physical infrastructure and enabling scalable digital-first customer servicing.

EARLIER EXPERIENCE

Shell Infotech India Pvt. Ltd. (at Deloitte) | Project Manager | Mar 2015 to Nov 2015

Royal Bank of Scotland Group (now NatWest Group) | Team Lead | Jul 2009 to Jul 2014

Owned and managed a portfolio of 16 mission-critical core banking and back-office applications serving 15M+ retail and commercial banking customers across the UK. Drove 22% uptime improvement and 35% MTTR reduction through proactive incident management and platform stabilization. Delivered platform migrations \$250K under budget, maintaining zero disruption to live banking operations.

Cincom Systems India Pvt. Ltd. | Sr Member Technical Staff | Dec 2007 to Jun 2009

TECHNICAL SKILLS

- **GenAI and Agentic Systems:** AWS Bedrock Agents, RAG Architecture, LLMOps, Agentic Workflow Design, LLM Selection and Evaluation, LangChain, Prompt Engineering, Multi-Agent Orchestration, LangGraph, Amazon Q, Claude (Anthropic), Kubeflow, Hugging Face
- **Cloud and Infrastructure:** AWS (Certified Solutions Architect), Azure, GCP, Kubernetes, Docker, Terraform, Lambda, EKS, DynamoDB, SQS, SNS, Serverless, Distributed Systems, Microservices, Event-Driven Architecture
- **Observability and Reliability:** Datadog (APM), Prometheus, SLO/SLI, Incident Response, Operational Readiness, CI/CD, GitLab, GitHub Actions, AWS CodePipeline, ArgoCD, Jenkins, SonarQube, JFrog
- **Security and Compliance:** GDPR, Privacy by Design, OAuth 2.0, Zero-Trust Architecture, SOC2, OWASP, IAM frameworks, Data Governance
- **Program and Delivery:** Agile, SFe, Scrum, OKR Planning, Risk Management, FinOps Governance, Stakeholder Management, Executive Communication, Roadmap Development, PoC Design and Experimentation, Scaled Automation Delivery, AI Adoption Enablement, Playbook Development, Engineering Productivity Frameworks, JIRA, Confluence.
- **Programming and Architecture:** Java, J2EE, Spring, REST API, Microservices, Python, Node.js, SQL (joins, aggregations, subqueries, query tuning), C#, ReactJS
- **Data and Analytics:** Elasticsearch, Solr, MySQL, PostgreSQL, MongoDB, Apache Spark, BigQuery, AWS Glue, ETL, PowerBI, Tableau
- **AI Productivity Tools:** Amazon Kiro, Amazon Q, Claude Code, GitHub Copilot, ChatGPT, Gemini, Google NotebookLM, Cursor, GitHub Enterprise, Atlassian ROVO

CERTIFICATIONS

PMP - Project Management Professional (PMI, 2025) | AWS Certified Solutions Architect Associate (AWS, 2024) | Google Cloud Generative AI Leader Specialization (2025) | PRINCE2 Practitioner (AXELOS, UK) | ITIL v3 Foundation (APMG International, UK)

EDUCATION

Master of Science, Information Technology | Karnataka State Open University, Mysore (2008)

Bachelor of Science, Information Technology | Karnataka State Open University, Mysore (2006)

AWARDS AND RECOGNITION

GenAI Program Lead Award - Amazon (2024) | Best Performing Engineering Manager - Deloitte (FY2020 & FY2021) | Best Team Lead - Royal Bank of Scotland (2011, 2012) | Ovation Excellence Award - Royal Bank of Scotland (2011)
